

What's in Your Toolbox?

Human error has been documented as a primary contributor to more than 70 percent of commercial airplane hull-loss accidents. While typically associated with flight operations, human error has also recently become a major concern in maintenance practices. Our featured speaker is Mr. John Bell who will discuss the role that human factors play in aircraft maintenance. Learn how to avoid errors caused by human factors. *NOTE: Open only to employees of the City of Bangor. For additional information, please contact Steve McMorrow at (207) 780-3263.

Directions: Third Floor of Airline Terminal Building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area
Sign up for the FAA's safety services at www.FAASafety.gov!
